

NSD-Series

The NSD-Series 4K digital signage displays with embedded Android OS, Neovo Signage cloud-based Content Management Systems (CMS) and versatile media player are designed to provide a smart and flexible digital signage solution. Featuring the cloud-based content management system, users can remotely manage signage campaigns and devices with internet browser. Digital media such as photos, music and videos can be uploaded to the reliable cloud server. Users are allowed to design campaigns with a variety of apps and instantly publish signage campaigns anywhere. The NSD-Series displays are ideally designed for retail shops, restaurants, hotels and other public spaces.

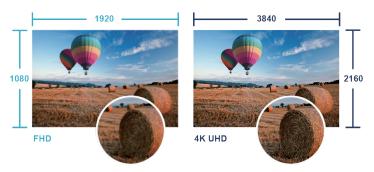

Experience the 4K Difference

Don't miss a single detail with this powerful 4K display. View smooth 4K video and images with a new level of detail and clarity. Offering 8.3 million pixels, the NSD-Series provides the ultimate digital signage experience.

World-Wide Content Access and Device Management

Working exclusively with NSD-Series displays, Neovo Signage cloud-based CMS enables you to create and schedule the signage campaigns, manage devices, and update content via browser no matter where you are. Users can simply create campaigns with the intuitive interface without any technical skills. Plus the downloadable dynamic and interactive signage apps, you can create eye-catching messaging as you need.

Enhanced Android-Powered Digital Signage Solution

With Android OS embedded into the display, you can easily integrate apps from a variety of supported Android apps. For additional convenience, you are able to assign the app or preloaded LAN-based CMS as a video source to enhance the flexibility of your signage application. Using the integrated HTML5 browser, you can display online or cloud-based content.

Versatile Content Playback and Scheduling

The embedded 4K media player allows to conveniently play content from a USB drive, micro SD or the internal storage. Simply create scheduled playlists with the included remote control to display your personalized content.

Compatible with Neovo Controller

Neovo Controller is display management software designed to simplify and centralize the control of multiple professional displays. It is an enhanced version of the older PID Controller software and features a more modern, intuitive user interface, on-demand status updates, and support for both individual and group control.

Features

- \bullet 4K UHD 3840 x 2160 resolution
- Durable metal housing (86" and 75" only)
- Image Enhancer: 3D Comb Filter / Noise Reduction / Freeze
- Versatile connectivity: DisplayPort*, HDMI, DVI*, VGA
- Embedded Neovo Signage Cloud-based content management system (CMS) for world-wide content and devices management
- Media Playback: play photos, videos and music from a USB drive or micro SD card
- Free LAN-based content management system
- Android OS 5.0.1

- An integrated scheduler allows content programming based on time and day
- \bullet $Alink^{\textsc{tm}}$ function for synchronized powering on/off via HDMI
- OPS slot for easy digital signage player integration (86", 75" and 65" only)
- RS232/LAN/IR control provides compatibility with control systems
- \bullet Black-level adjustment for presenting more details in dark images
- Selectable gamma curves optimise different kinds of images
- Built-in speakers
- \bullet VESA mount compatibility for flexible installation

^{*} Product features may vary by models
