Declaration

Subject: Declaration Regarding RED-Certified Wi-Fi Module

This declaration confirms the compliance status of the Wi-Fi functionality used with the AG Neovo IFP Series displays.

The Wi-Fi function of the IFP Series is provided through an external Wi-Fi module and is not integrated into the display itself. Therefore, the external Wi-Fi module supplied for use with the IFP Series has been independently certified and complies with the requirements of the Radio Equipment Directive (RED) 2014/53/EU. The certification has been issued by a third-party certification body. Relevant certification documentation for the module is available upon request.

Sincerely yours,

A handwritten signature in black ink that reads 'Tony Chu'.

Name: Tony Chu

Function: AG Neovo Senior Manager
